

A note from Dr. Stein...

Well, another week has gone by! We ended last week with our first off-campus outreach field trip to the Nursing Home. The kids enjoyed their time singing and visiting with the residents. We collected everyone's names so we can write them letters this week in writing class. And so begins a beautiful friendship: one that connects the new additions on this earth with the older ones!

Last Friday we also had our very first Powerpoint presentations. We all had a chance to show off our computer skills. Grades 1-4 each made a presentation about Helping the Planet, and grades 5-8 discussed the differences between Chemistry and Biology. It was a fascinating class, all around.

This week we've been learning all about Native American Tribes, and are completing our study with a diorama of Native American life. Each student is assigned a tribe, from Cherokee to Shoshoni to Hopi. More to come in next week's edition!

We have been learning a few new songs each week, and will especially learn about prayer this week in preparation for our softball game on Sunday! We hope you will join us to let us show you what we've learned. We aim to keep Jesus at the center of all we do, and that includes learning to pray in a way that isn't 'standard,' 'boring,' or 'normal!' Come pray energetically with us and end it all with a fun game or two of family-style softball! We hope to see you there!

Everyone had a wonderful time visiting the Trinity Living Center. The children sang beautifully and the residents absolutely loved their visit! The students made cards for the ladies and gentlemen there and they also had a questionnaire to fill out to get to know them better. We are looking forward to sending cards to our new friends and visiting them again sometime soon!

On Friday, Art with Mrs. Kellie consisted of making self-portraits, or in some cases, the portrait of a friend!

Every day after lunch we are blessed by the sounds of the piano! Christopher always plays a song or three for us, and he is usually accompanied by one of the other children. On this day, Michael was his helper!

Introducing our Student of the Week...

Name: Hannah

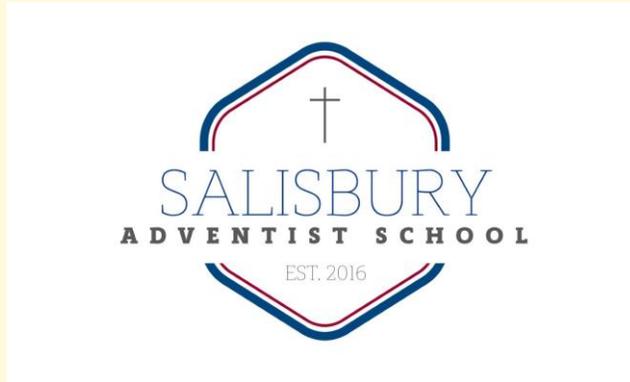

Age: 6

Favorite color: Pink

What do you do for fun? Play basketball!

What is your favorite food? Sandwiches

What do you want to be when you grow up? Police Officer

305 Rudolph Road Salisbury, NC 28146
