

A note from Dr. Stein...

What an eventful week this has been for us here at SAS! While 1st and 2nd grade have been enjoying regular studies, all of the other grades underwent our annual ITBS tests. These standardized tests measured our student's abilities in Reading, Math, Social Studies, Science, Spelling, and more. It's been an intense week, and we are glad to have them over with (although the students were thankful to not have any homework, I am told)!

We completed and shared our life stages projects in grades 1-4, and our DNA/Mitosis projects for grades 5-8. Everyone learned a little something in these presentations, let me tell you. Did you know that DNA is present in every cell (usually in the nucleus)? Or that each flower has something like a treasure chest of new flowers in the center of its petals, because of the seeds growing there? And that every thing that grows undergoes mitosis, from a kid growing an inch to a seedling pushing out of the dirt. These are just a few little things you can learn and see as a fly on the wall during science presentation time!

We are so happy to be able to visit our family in the Concord SDA Church this sabbath! We have so much to share, and we hope we can be shining lights for God while we lead with our voices, hands, and feet!

On Friday, Mr. Mosher was our Chapel leader. He talked about all of the bible greats: Job, David, Daniel, Esther, and about defeating the odds by clinging to Jesus.

He talked about God's testing of our characters and how He puts things into our lives to strengthen us and refine our characters.

Exciting things are happening at SAS!

Everyone did a great job with their projects last week! Stop by and take a look at them in the school foyer!

Ella is our push up leader in P.E. Look at that form!

STUDENT OF THE WEEK....

Name: Ciera

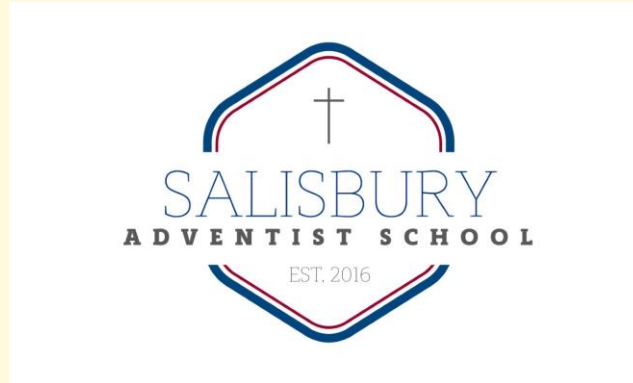

Age: 11

Favorite color: Purple, pink, blue & black

What do you do for fun? Play Jump the Creek

What do you want to be when you grow up? An athlete

Be sure to check the website for more information and important upcoming events!
