Well, the week's projects have been a smash! The upper graders had their first dissection presentation: the Anatomy of a Worm. We learned quite a bit about our wriggly fellows. Lower graders had a chance to show off their understanding of torque and mechanical movement. It's pretty amazing to see a 5-year-old explain a concept that some adults struggle with.

We went to school on Martin Luther King JR Day, and had a chance to begin planning for our Valentine's Day Banquet coming up. Don't miss this gift event! It will be a romantic dinner complete with entertainment and student music. We are planning to walk the neighborhood and personally tape invitations to the doors of our neighbors. What are your Valentine's Day Plans? Why not come over to the fellowship hall in some fancy duds and celebrate with some delicious food and fun atmosphere? All are invited, at just \$25 a couple (proceeds go towards enriching our school!).

Game night is just around the corner! [We will be making some decisions at our annual constituency board meeting on Sabbath Night, January 28, at 6PM.](#) Then we will proceed to the fun part, with board games and snacks! [Come out for a fun filled evening, and learn to play a new game \(and a few oldies\).](#)

We are studying Jesus' last days here on earth in school. I am consistently amazed at how calm, loving, and gentle Jesus was to the people around Him. Turns out, it's awful hard to be like Jesus these days! We're praying that we can find practical ways to accomplish this important task.

SAS Needs You!

We are looking for a few volunteers who are willing to Adopt-A-Student! Do you have 2 hours a week that you could spend with a student to encourage them, help them with their school work and pray for them? Let us know!

Mark Your Calendar!
